# NEW European citizens!

Tools for the Inclusion  
of Migrants in European Society,  
No. 2020-1-LT01-KA204-077886

## CONTEXT OF NEW TIMES

The European Union has found itself unprepared to govern the mass migration phenomenon of the last five years (2015-2020), as many of the tools to manage it are still in the hands of the national states. For their part, individual states have not shown a willingness to act together and according to common rules. The initiatives have thus fragmented.

However, the European Commission has tried to activate programs and funding for projects to support the reception and inclusion of migrants and refugees, however, little has been done about a complete social and political inclusion that takes into account the rights / duties of citizenship within the national communities and within the common European home.

This is an important task, on which the future stability of the EU institutions and the preservation of its principles inspired by the dignity of the person will depend.

## AIM OF THE PROJECT

To exchange good practices at transnational and European level and to outline new approaches, methods and tools for the training of migrants and refugees from third countries as future aware and responsible European citizens.
