

Key competences in VET

ReferNet supports the review of the
framework

Eleonora Schmid, Cedefop VPS team coordinator

Information point

- Cedefop (together with ETF) has prepared a well-received background paper on key competences on VET for the ACVT meeting on 20-21 April
- This background paper was based on information provided by ReferNet thematic perspectives
- Together with the European Commission's background paper it has informed the discussions on the review of the 2006 key competence framework

Discussion

Opinion of ReferNet partners is welcomed by the Commission on the following topics:

- developments and challenges presented in the Commission's paper and possible other considerations you deem relevant for the review of the key competences framework;
- particular areas of the current key competences framework you consider need most revision and comment on considerations for possible changes presented in the paper;
- suggestions for better use of the key competences framework.

Public consultation

- ReferNet members may submit their views directly through a public consultation until 19 May (see information of 3 March 2017):

http://ec.europa.eu/education/consultations/lifelong-learning-key-competences-2017_en
